JEEL SUTHAR

Python Developer | Backend Developer

Ahmedabad, Gujarat, India | +91 9099040656 | jeelsuthar1006@gmail.com | linkedin.com/in/jeel-suthar-js0005

PROFESSIONAL SUMMARY

Python Developer with 2+ years of professional experience in backend development, REST API development, process automation, web scraping, and data analysis. Proficient in Python 3, Django, Flask, Pandas, NumPy, Selenium, BeautifulSoup, SQL, MySQL, MongoDB, and Git. Experienced in building scalable Python scripts, RESTful APIs, ETL-style data pipelines, Excel reporting dashboards, and automation workflows for healthcare and enterprise clients. Strong in Object-Oriented Programming (OOP), data structures, debugging, unit testing, version control with Git and GitLab, and Agile teamwork. Seeking a Python Developer / Backend Developer role.

SKILLS

Languages: Python 3, SQL, C, C++, JavaScript, HTML5, CSS3, JSON
Frameworks and Libraries: Django, Flask, Pandas, NumPy, Matplotlib, Selenium, BeautifulSoup, Bootstrap, Tkinter
Backend and Automation: REST API, RESTful API Development, API Integration, Backend Development, Process Automation, Scripting, Web Scraping, Data Extraction, CRUD Operations
Databases: MySQL, MongoDB, SQL Queries, Relational Databases, NoSQL, Data Modeling
Tools: Git, GitLab, Jupyter Notebook, PyCharm, VS Code, Microsoft Excel, VBA, Linux, Windows, macOS
Practices: Object-Oriented Programming (OOP), Data Structures, Algorithms, Unit Testing, Debugging, Code Review, Version Control, Problem Solving, Data Analysis, Data Visualization, Data Cleaning

WORK EXPERIENCE

Python Developer

Integrity Healthcare Solutions Pvt Ltd, Ahmedabad | November 2024 - Present

- Developed Python automation scripts and process automation workflows that reduced manual effort.
- Designed and implemented REST APIs and RESTful services for internal systems and third-party API integration, enabling secure JSON data exchange.
- Built ETL-style data pipelines using Pandas and NumPy for data cleaning, data transformation, and automated Excel report generation.
- Created interactive Excel dashboards and reporting solutions with VBA and Python to deliver accurate business intelligence reports to stakeholders.
- Performed data analysis and data profiling in Jupyter Notebook to identify process gaps and support data-driven decision making.
- Used Git and GitLab for version control, code review, and collaborative software development.
- Applied Object-Oriented Programming (OOP) and clean coding practices to develop reusable Python modules for backend and automation tasks.

Python Developer

X-Byte Enterprise Crawling, Ahmedabad | January 2024 - April 2024

- Built large-scale web scraping and data extraction solutions using Selenium and BeautifulSoup to collect structured data from multiple websites.
- Processed and transformed scraped datasets with Pandas and SQL-friendly workflows to produce client-ready Excel reports.
- Optimized Python scripts for performance, improving scraping pipeline runtime and reliability in production.
- Debugged production issues and performed code review to maintain high-quality data extraction and automation pipelines.

Software Intern - Python and C++

Xipra Technology, Himmatnagar | July 2023 - January 2024

- Practiced Python and C++ programming with focus on Object-Oriented Programming (OOP), classes, inheritance, and encapsulation.

- Implemented data structures and algorithms including arrays, linked lists, stacks, and trees to strengthen problem-solving skills.
- Developed file I/O programs in C++ and Python to read, write, and process structured data files.

PROJECTS

E-Commerce Website | Python, Django, MySQL, HTML, CSS, JavaScript, Bootstrap, Razorpay

- Developed a full-stack e-commerce web application using Python, Django, MySQL, HTML, CSS, JavaScript, and Bootstrap.
- Implemented user authentication, product catalog, shopping cart, wishlist, and CRUD operations with Django backend.
- Integrated Razorpay payment gateway and Cash on Delivery; used MySQL for relational database storage and data persistence.

EDUCATION

Master of Science (M.Sc.) in Mathematics | Gujarat University | 2021 - 2023
Bachelor of Science (B.Sc.) in Mathematics | Gujarat University | 2018 - 2021 | CGPA: 7.12

CERTIFICATIONS

- Udemy - Master Programming and Development with Projects: Python, Data Science, Data Visualization, Machine Learning
- Udemy - Python In Practice: Django Web Development, Tkinter, Data Science, Machine Learning Projects
